<b>Department of ECONOMICS</b>		
Course Code	Course Name	Course Outcome
Eco/1/CC/01	Microeconomics-I	<p>CO1. Give the meaning of economics, scope and basic problems of economics, price system in the economy and the role of the government in price system.</p> <p>CO2. Explain how the individual consumer reaches the equilibrium level of consumption by using cardinal and ordinal approaches &amp; how consumption is affected by the changes in price and income.</p> <p>CO3. Explain the theory of production and cost, the input-output relation of factors of production, equilibrium level of output and various concepts of cost.</p> <p>CO4. Describe market structure by giving the meaning of market and its features &amp; explain how the producer fixes the price in various markets and the equilibrium level of output in the short and long run. Explain price discrimination under monopoly and government intervention, so that they can compare different markets.</p> <p>CO5. Describe market structure-II by giving the meaning and features of monopolistic competition, oligopoly, duopoly and monopsony &amp; classify various markets with reference to their price and output determination.</p>
Eco/2/CC/02	Micro-Economics-II	<p>CO1. Explain factor prices by determining the price of input using marginal productivity of distribution. Identify various types of interest, rent, wages and profit paid to the factors.</p> <p>CO2. Give the meaning of factor market and explain determinants of demand for factors of production under factor market - firm's demand for single and several variable factors. Explain how the firm reaches its equilibrium level of employment of factors of production &amp; the comparison of wages under perfect and imperfect markets.</p> <p>CO3. Describe welfare economics &amp; its various concepts. Illustrate basic tools in welfare economics and explain how the government achieved economics welfare of by studying welfare economics.</p> <p>CO4. Illustrate investment analysis by studying various concepts and types of investment, calculate returns and its benefits from investment.</p> <p>CO5. Explain international trade &amp; the difference between inter regional and international trade. Explain what does a nation trade gains from trade, the distribution of gains from trade between the trading countries.</p>
Eco/3/CC/03	Macro-Economics-I	<p>CO1. Explain the concepts and measurement of national income &amp; identify the problems in the calculation</p>

		<p>of national income and the basic structure of the economy and the contribution made by the various sectors to the national income. Analyse the policy of the government to improve the economic health of the nation.</p> <p>CO2. Explain various theories of employment &amp; answer the question of what determines the volume of employment and output in an economy. Demonstrate the principle of effective demand and income determination.</p> <p>CO3. Describe consumption function &amp; explain the relationship between the increase in income, increase in consumption and the factors which determined consumption function.</p> <p>CO4. Explain investment and saving &amp; give the relation between investment and saving. Calculate whether investment is profitable or not depending upon MEC and MEI, the increase in income and employment due to investment multiplier.</p> <p>CO5. Interpret interest by giving the meaning of net and gross interest. Illustrates various theories of interest and determine the rate of interest in the economy. Explain the effect of interest on investment and saving.</p>
Eco/4/CC/04	Macro-Economics-II	<p>CO1. Define money and explain various function of money. Classify money and explain Gresham's Law. Explain how the money circulates in the economy by using quantity theory of money.</p> <p>CO2. Identify types of banks and its different functions. Illustrate how the commercial banks create money in the economy, the need for control of credit in the economy &amp; methods of credit control by the Central Bank.</p> <p>CO3. Explain the meaning and phases of trade cycle, different theories of trade cycle. Explain the effect of cyclical fluctuation of trade cycle on the economy and suggest measures to control harmful effect of fluctuation in business cycle.</p> <p>CO4. Illustrate the meaning of inflation, deflation, stagflation and reflation. Identify different kinds of inflation, causes and effects of inflation on different sectors of the economy &amp; describe the measures to control inflation.</p> <p>CO5. Explain the meaning of economic growth and development. Identify economic growth using Harrod-Domer Model and Solow's growth mode. Distinguish between economic growth and technical progress.</p>
Eco/5/CC/05	Indian Economy	<p>CO1. Explain the basic characteristic of under developed economy and the nature of Indian economy. Illustrate the role of the state for economic development and importance of sustainable development in recent context. Identify various natural resources which are available in India.</p> <p>CO2. Give the actual size of population in India and find the impact and causes of the rapid growth of population. Suggest measures to control population growth and Government population Policy in India. Identify occupational and regional distribution in India &amp; relate population growth with economic development.</p>

		<p>CO3. Describe planning in India &amp; the importance of planning for economic development, objectives, success and failure of 5Years Plan. Explain the composition and role of NITI Aayog. Illustrate the importance of New Economic Reforms.</p> <p>CO4. Explain the importance of agriculture in Indian economy, contribution of Agriculture to the National Income of India. Analyse the agricultural production and productivity, in India &amp; the drawbacks of Indian agriculture, suggest measures to improve agriculture in India. Illustrate the importance and results of Green Revolution.</p> <p>CO5. Explain the basic features of Mizoram economy, the area where their university is located. Find occupational structure and sources of income of the state. Analyse the trend of public expenditure, the shifting cultivation, its drawbacks and environmental impacts.</p>
Eco/5/CC/06	Public Finance	<p>CO1. Explain the meaning and scope of public finance, the difference between public and private finance, difference between public and private good. Illustrate the maximum social advantage on public expenditure. Explain meaning and courses of market failure and role of government.</p> <p>CO2. Explain the meaning and various classification of public expenditure. Explain the principles which should guide the public expenditure policy of the state. Explain the direction and causes of growth of public expenditure in modern economy.</p> <p>CO3. Explain how the government raised funds from various sources to finance its activities &amp; inculcate the knowledge by studying various types of tax and the principle which should govern the tax system and how the burden of tax is distributed in the economy, suggest the good tax system in the economy.</p> <p>CO4. Explain why a government resort to borrowing because of some fiscal compulsion &amp; the sources of such borrowings and the repayment method of public debt. Explain the effect of Public debt in the economy and India's Public debt.</p> <p>CO5. Explain the meaning and various classification of budget and how the budget are prepared and passed in the house. Explain the role of Finance Commission &amp; identify a budget which satisfies certain identified criteria.</p>
Eco/5/CC/07	Quantitative Technique-I	<p>CO1. Describe the basic concept of sets and linear equation and apply the knowledge of sets and linear equation in various economic activities.</p> <p>CO2. Demonstrate the rule and usage of differentiation and application of simple differentiation in economic activities. Explain the concept of revenue and cost, profit maximization, cost minimization, elasticity's.</p> <p>CO3. Demonstrate the uses and rules of simple integration &amp; calculate the problem of the Consumer's and Producer's surplus, revenue and cost.</p>

		<p>CO4. Explain different types of matrix operations. Use Cramer's rule to solve equations and Co- factors method to find the inverse of a matrix.</p> <p>CO5. Explain the concept and formulation of Linear Programming problems. Solve linear equation problem using graph methods. Demonstrate the concept of dual.</p>
Eco/5/CC/08A	Agriculture Economics.	<p>CO1. Discuss the composition of Indian rural economy &amp; identify the importance as well as opportunities available in those flourishing sectors such as horticulture, fisheries, floriculture and forestry.</p> <p>CO2. Illustrate the overall development and engine of growth in agriculture. Sensitize the distinctive features of rural and urban economy or agricultural and non- agricultural which can influence the whole economy.</p> <p>CO3. Identify the reasons for the need of land reforms in India and enable to comprehend the necessary objectives and measures for the improvement.</p> <p>CO4. Give the need to exploit traditional practices and utilize through development and improvements of production techniques. Aware of the availability of rich natural endowments to achieve sustainable agricultural development.</p> <p>CO5. Identify globalization of the Indian economy and its effect on Indian agriculture. Challenge the problems of unemployment, shortage of food production, and be useful to compete advanced agricultural economies.</p>
Eco/6/CC/09	Environmental Economics	<p>CO1. Explain how the economy and environment are linked, the environmental issues in relation to the theory of externalities and public goods, identify key reasons why markets sometimes fail to achieve socially optimal outcomes.</p> <p>CO2. Identify the relation between development environmental quality with the help of Environmental Kuznet's Curve. Maintain environment and economic issues relating demographic transition, increase in population and poverty.</p> <p>CO3. Implement the sustainable development to foster economic growth while preserving the quality of the environment for future generations and apply millennium development goals to ensure environmental sustainability and develop a global partnership for development</p> <p>CO4. Describe the causes, effects and measures to control pollution in order to achieve optimal level of pollution in India</p> <p>CO5. Examine the factors forcing climate change and solve the global environmental issues. Explain the importance of preserving the environment and set forth international guidelines to protect environment</p>
Eco/6/CC/10	Quantitative Techniques – II	<p>CO1. Explain the basic importance and uses of statistics. Collect data and manipulate using statistics method. Apply the different methods of data collection: Classify Primary and Secondary data, Census and</p>

		<p>sample survey.</p> <p>CO2. Demonstrate and calculate measures of central tendency – mean, median, mode etc. Determine the measures of dispersion like range, mean deviation, standard deviation, coefficient of variation etc.</p> <p>CO3. Explain the concept of probability and basic theorem of probabilities. Calculate theoretical distribution like binomial, poisson and normal distribution.</p> <p>CO4. Demonstrate Karl Pearson and rank correlation. Explain concepts of partial and multiple correlations. Describe regression analysis and estimate regression line by different methods.</p> <p>CO5. Demonstrate the concept and components of time series and various trends of time series. Calculate problems of index number using various methods.</p>
Eco/6/CC/1 1	Financial Institutions & Markets	<p>CO1. Describe the functions, objectives and measures taken by RBI and how it helps in controlling Inflation in the economy. Identify different financial instruments and apply different methods in controlling credit in the economy.</p> <p>CO2. Examine the importance and functioning of money market in an economy. Demonstrate an understanding of the commercial banking and its operational issues within a globalized economic system.</p> <p>CO3. Identify the existence of Non-banking Financial Institutions, know the important role of LIC, Investment Companies, Mutual funds etc. and understand how RBI take measures for their regulations in the economy.</p> <p>CO4. Explain the conditions of financial markets, money market and capital market and its impact in the economy.</p> <p>CO5. Explain the role and significance of foreign exchange rate and the concept of different exchange rate. Apply Eurodollar markets to help financial institutions to have greater flexibility in adjusting their cash and liquidity position of the economy</p>
Eco/6/CC/12B	International Trade	<p>CO1. Inculcate the importance of international trade for economy. Explain the difference between inter-regional trade and international trade. Illustrate the importance of international trade and the determinants of international trade.</p> <p>CO2. Explain how a nation gains from international trade and explain the rate at which the commodities are exchange between the trading countries. Explain how the international trade take place by using reciprocal demand.</p> <p>CO3. Illustrate the various trade protection measures adopted by the trading countries and their impacts on the economy. Suggest policies and measures on trade protection.</p> <p>CO4. Differentiate between the balance of trade and balance of payments. Illustrate the causes of disequilibrium in the balance of payments and harmful effect of disequilibrium in the balance of payments.</p>

		<p>Suggest measures to correct the balance of payments.</p> <p>CO5. Illustrate the various items of India's foreign trade and its trading partners. Explain the causes of deficit in the balance of payments and suggest measures to correct the deficit in the balance of payments.</p> <p>Explain the nature of Indian currency system.</p>
<p>Program Outcome</p>		<p>PO1. After completion of under graduate degree course, students will understand the basic principle and concepts of micro-economics and macro-economics. By studying micro-economics, they will understand various economics principle and structures which governed individual economic activities in the real world. Macro-economic will also give the knowledge the overall dimension of economic live, like distribution of national income, consumption behaviour, price level and price policy of the government, employment level and problems, etc. In short, they are equipped with the relevant knowledge of economic principle in order to solve the economic problems, planning and investment.</p> <p>PO2. By studying Indian economics, our students are well equipped with various economic problems like its nature, natural resources, unemployment problems, national income, financial institutions and source of finance for different sectors of economy, industrial development, population, trade and balance of payments, etc. So that, after completing the program, they understand what step should be taken to develop our economy and what should be given more importance in our planning.</p> <p>PO3. Under this program and course, the study of public finance gives the knowledge of financial management of government. Sources of revenue and expenditure and their classification. In our institution, we offer Agriculture Economics. Agriculture occupies an important place in our economy since almost 75% per cent of our population are engaged in agriculture and its allied activities. Students are well equipped with the importance and problems of our agricultural sector. Environmental economics gives the importance of sustainable economic development and various measures which should be taken for the future.</p> <p>International trade helps the students to understand the nature, importance and problems international trade. It informs how the trading countries would gain through international trade. After having a good knowledge on such papers and topics they will become more efficient and good contributor for economic development.</p>

Program Specific Outcome	<p>PSO 1. Understand the application of Microeconomics to examine the impact of Government regulation and enable them to explain determinants of demand, forms of market structure and the benefits of trade among different countries</p> <p>PSO 2. Analyse economic theories and concepts to contemporary social issues and familiar with the knowledge of economic principle in order to solve the economic problems, planning and investment.</p> <p>PSO 3. Compute and assess the real situation of the economy including income pattern, rate of development and growth, price elasticity, pattern of saving and investment and social security measures adopted in the country as the programme includes Statistics and Mathematics.</p> <p>PSO 4. Examine environmental problems and able to apply the method of controlling environmental pollution in achieving sustainable development.</p>
--------------------------	--

<b>Department of EDUCATION</b>		
Course Code	Course Name	Course Outcome
UG/EDN/I/EC/I	Psychological Foundations of Education	CO1. Describe the implications of - educational psychology in teaching and learning, Piaget's theory of cognitive development. CO2. Explain the implications of understanding individual differences in teaching and learning. CO3. Identify the role of teachers in developing mental health and hygiene of the student. CO4. Examine the theories of intelligence and characteristics of creativity. CO5. Describe the assessment of personality and factors affecting personality development. CO6. Examine the different theories of learning and their educational contributions.
UG/EDN/I/EC/II	Philosophical and Sociological Foundation of Education	CO1. Discuss the role of philosophy and society in Education. CO2. Explain the Philosophy of idealism, realism, naturalism and pragmatism and their contributions to educational theory and practice. CO3. Discuss the structure and functions of the society and the process of social interaction for change towards better human relationship. CO4. Examine the correct social problems relating to education in India based on equalizations of educational, opportunities, education of backward classes, literacy of girl's education and freedom and discipline.
UG/EDN/I/EC/III	Development of Education	CO1. Discuss the development of education in India in historical perspective. CO2. Explain the salient features of education in ancient, medieval and British India. CO3. Describe the significant points of selected educational documents and reports of these period. CO4. Explain the recommendations of various commission and committee on Indian Education. CO5. Examine the development of education in Mizoram in historical perspective.
UG/EDN/I/EC/IV	Issues and Trends in Contemporary Indian Education	CO1. Explain the basic aspects and problems relating to elementary, secondary and higher education and the role or functions of various organizations in education at different stages. CO2. Discuss the initiative and actions taken by Government of India in providing alternatives for schooling. CO3. Analyse the important modern trends in Mizoram.
UG/EDN/V/EC/V	Research Methodology in Education	CO1. Outline the steps and need for educational research. CO2. Describe the different types of variables and hypotheses.

		<p>CO3. Discuss the importance of sample and the principles of sampling design.</p> <p>CO4. Identify the different tools for collecting data.</p> <p>CO5. Write a report on a research project.</p>
UG/EDN/V/EC/VI	Fundamental of Statistics	<p>CO. explain the basic concept of statistics and types of Statistics.</p> <p>CO2. Explain and illustrate Graphical representation of Histogram, Frequency Polygon and Pie-gram.</p> <p>CO3. Explain the concept, uses and apply measures of Central Tendencies.</p> <p>CO4. Describe the concept, uses and compute measures of variability.</p> <p>CO5. Explain the concept, characteristics and application of normal distribution.</p> <p>CO6. Compute co-efficient of correlation and interpret the result of coefficient of correlation.</p>
UG/EDN/V/EC/VII	Educational Evaluation	<p>CO1. Write an essay on the various function of evaluation in Education.</p> <p>CO2. Identify the nature of good measuring instrument and the scale of measurement.</p> <p>CO3. Differentiate between standardized and teacher-made tests.</p> <p>CO4. Discuss the various types of tests and the principles for constructing the tests.</p> <p>CO5. Analyse the process of Standardizing a test.</p> <p>CO6. Identify and examine the new trends in evaluation.</p>
UG/EDN/V/EC/VIII	Guidance and Counselling	<p>CO1. Explain the concept and basis of guidance.</p> <p>CO2. List out the principles of guidance.</p> <p>CO3. Describe the meaning, needs, purposes and functions of educational, vocational and personal guidance.</p> <p>CO4. Examine the difference between educational and vocational guidance.</p> <p>CO5. Examine the needs of job analysis and occupational information.</p> <p>CO6. Describe the importance of student's appraisal by using different kinds of test's.</p> <p>CO7. Explain the meaning and importance of counselling with the role of counsellor in secondary school.</p>
UG/EDN/IX/EC/09	Curriculum Development	<p>CO1. Examine the functions and various types of curriculum.</p> <p>CO2. Develop critical thinking in the process of curriculum construction.</p> <p>CO3. Describe the psychological, sociological and philosophical foundations of curriculum.</p> <p>CO4. Demonstrate 'curriculum evaluation' using formative and summative evaluation.</p> <p>CO5. Explain the need and factor affecting curriculum change.</p>

UG/EDN/VI/EC/X	Educational Planning and Management	<p>CO1. Discuss the basic concept of Educational Management and compare the different types of Management.</p> <p>CO2. Discuss the procedures to be followed in Educational Planning.</p> <p>CO3. Analyse the problems of Financial Educational Institutions and generate realistic solutions based on their sources of Income.</p> <p>CO4. Explain and examine the concept and factors affecting managerial behaviour.</p> <p>CO5. Describe the concept, types and principles of supervision.</p>
UG/EDN/VI/EC/XI	Development of Educational Thought	<p>CO1. Discuss the evolution of educational thought in Greece and Rome.</p> <p>CO2. Describe the roots of educational thought and practices in Medieval Europe – Monastic, Scholastic, University education for chivalry.</p> <p>CO3. Discuss the educational thought of M.K. Gandhi and Rabindranath Tagore.</p> <p>CO4. Outline the educational contribution of Rousseau and John Dewey.</p> <p>CO5. Describe the role of open and distance education and globalization of education as a means to modern education.</p>
UG/EDN/VI/EC/12(B)	Pedagogy	<p>CO1. Explain and examine the nature and characteristics of teaching.</p> <p>CO2. Describe the meaning, characteristics and types of audio-visual aids.</p> <p>CO3. Examine the principles of selection of audio-visual aids and advantages and disadvantages of audio-visual aids.</p> <p>CO4. Explain and demonstrate and lesson plan and diagnostic testing.</p> <p>CO5. Explain the models and different methods of teaching with its advantages and disadvantages.</p> <p>CO6. Explain the meaning and characteristics of the role and function of an effective teacher.</p> <p>CO7. Describe the meaning, needs and significance of professional ethics for a teacher.</p>
Program Outcome		<p>PO1. Demonstrate the process of teaching and learning, role of school, teacher and environment for the growth of children.</p> <p>PO2. Illustrate the role of philosophy and sociology in education.</p> <p>PO3. Explain the structure and functions of the society and the process of social interaction.</p> <p>PO4. Analyze certain current social problems relating to education.</p> <p>PO5. Acquainted with basic research and develop skills to conduct project work in the field of education.</p>

	<p>PO6. Explain basic statistical technique and analyze educational data; interpret test results with different descriptive measures.</p> <p>PO7. Explain the concept of measurement &amp; evaluation, different types of test, different steps of test in the field of education.</p> <p>PO8. Explain various theories of teaching, the scope and field of pedagogy, the ability to analyze and observe classroom teaching-learning.</p> <p>PO9. Analyze the development of educational thought and practices in global perspectives.</p> <p>PO10. Describe ancient education and compare the difference with modern education.</p> <p>PO11. Clarify different commissions of Indian education and its application to the present society.</p> <p>PO12. Analyze the development of education in the early period of Mizoram and compare it to the present educational system.</p> <p>PO13. Explain the roles and functions of different organizations and regulating bodies concerning elementary, secondary and higher education.</p> <p>PO14. Acquainted with the knowledge of counselling guidance when dealing with certain difficulties.</p> <p>PO15. Developed skilful experience in planning curriculum.</p>
<p>Program Specific Outcome</p>	<p>PSO 1. Acquire the knowledge of human psychology, individual differences, growth and development, role of school and will be able to solve problems in both learning and during those different stages of growth and development.</p> <p>PSO 2. Conduct projects in the field of education and write a report.</p> <p>PSO 3. Explain the role and importance of philosophy and sociology in educational theory and practice for better human relationship.</p> <p>PSO 4. Explain various methods of teaching &amp; different kinds of educational systems. PSO 5. Develop a positive attitude towards the teaching profession.</p> <p>PSO 6. Analyze the educational thought and practices of western and Indian thinkers.</p>

<b>Department of English</b>		
Course Code	Course Name	Course Outcome
ENG/I/FC/01	English I	<p>CO1. Use the four skills of LSRW effectively in their everyday communication.</p> <p>CO2. Identify the parts of speech used in the sentence construction.</p> <p>CO3. Use tenses correctly according to the nature or message conveyed</p> <p>CO4. Master the rules of transforming voices and speeches.</p> <p>CO5. Identify the agreement of words in a sentence through the concept of Concord.</p> <p>CO6. Improve reading speed and comprehension as well as reading fluency skills from the set of comprehensive passages.</p> <p>CO7. Write effective essays and summaries from a recent topic or even a prose piece.</p> <p>CO8. Identify the different elements of a letter and apply these elements to compose a letter.</p> <p>CO9. Produce clear and coherent writing.</p> <p>CO10. Write a resume and also understand the typical conventions of report writing.</p> <p>CO11. Develop critical and analytical thinking skills from essay writing exercises.</p> <p>CO12. Use the correct pronunciation of words.</p> <p>CO13. Differentiate major accents of English speaking nations.</p> <p>CO14. Employ complex vocabulary and have a satisfactory grasp of syntax.</p>
ENG/I/EC/01	Elective English (History of English Literature)	<p>CO1. Delineate major writers and their works from Anglo Saxon to the Modern. Period.</p> <p>CO2. Comment on how literature influences social political history of Middle English writers and Renaissance English society.</p> <p>CO3. Analyse the function of satire and it's didactic attention to literature.</p> <p>CO4. Identify Early Modern English literature during the 16th Century and analyse the Romantic and Victorian Moral which anticipated the counter linguistic turn in the 20th century.</p>
ENG/II/EC/02	English II (History of Language & Phonetics)	<p>CO1. Describe the historical background to the evolution of English from its origins.</p> <p>CO2. Describe the nature of the language and its social economic and political spheres.</p> <p>CO3. Briefly analyse the process of speech sound making and their place and manner of</p>

		<p>articulation.</p> <p>CO4. Distinguish between the workings of vowels and consonants.</p> <p>CO5. Identify stress patterns in both everyday usage and artistic utility.</p>
ENG/II/FC/02	English II	<p>CO1. Write a note on the best examples of English prose and poetry in English so as to realize the communicative power of literature.</p> <p>CO2. Develop the ideas and critical thinking behind the Romantic poets.</p> <p>CO3. Learn how to appreciate the creative use of language in 16th Century literature.</p>
ENG/III/EC/03	English III (Prose & Poetry)	<p>CO1. Identify the minor forms of literature in English.</p> <p>CO2. Write a note on the excellent pieces of Indian Tribal literature written by North Eastern writers.</p> <p>CO3. Briefly describe the impact of NE Indian history written by the local writers of Northeast.</p>
ENG/IV/EC/04	English IV (Fiction)	<p>CO1. Analyse the conventions of English novels during the Victorian Era.</p> <p>CO2. Describe how students interest in reading English literary pieces can be developed with examples.</p> <p>CO3. Comment on the different types and aspects of Victorian novels.</p> <p>CO4. Make an assessment of the characters of Victorian dramas through the English writers portrayal of characters.</p> <p>CO5. Describe how the novel of social protests, political satires and realistic fiction serves the purpose of humanity through readings of Victorian literature.</p>
ENG/V/CC/05	English V (Drama)	<p>CO1. Identify Medieval Christianity, Shakespearean tragedies and the 16th Century dramas in general.</p> <p>CO2. Make a detailed study of a few sample masterpieces of English drama from different parts of the world.</p> <p>CO3. Describe how to appreciate and analyse drama independently.</p> <p>CO4. Develop a wider knowledge based on the critique of London society during the 1770's through drama studies.</p> <p>CO5. Distinguish the differences between Marlovian hero and Shakespearean hero.</p>
ENG/V/CC/06	English VI (Women's Writing)	<p>CO1. Identify the different aspects of feminist novels.</p> <p>CO2. Analyse the English class structure and its radical break with Victorianism after the First World War.</p>

		<p>CO3. Write a note on the study of the status of women in Indian society through readings of Indian novels.</p> <p>CO4. Comment status of women across the world through the prescribed novels.</p> <p>CO5. Distinguish the plight of women from different cultures around the world.</p>
ENG/V/CC/07	English VIII (Literary Theory and Criticism)	<p>CO1. Describe the genesis and the anticipation of English literary criticisms from its Greeko-Roman origins,</p> <p>CO2. Comment on the evolution of Middle English criticisms Into a more refined one in the neoclassical age under the study of John Dryden and his contemporaries.</p> <p>CO3. Define the nature of language use and simplicity in romantic poetry and practical mode of measurement used by Victorian critics.</p> <p>CO4. Write a comprehensive assessment on modern literary criticism.</p>
ENG/V/CC/08	English VIII (Popular Studies)	<p>CO1. Comment on some of the best samples of the counterculture music of the 60's.</p> <p>CO2. Analyse the American history such as the Vietnam War and the Civil Rights Movement.</p> <p>CO3. Describe the impact of positive values and attitudes conducive to lifelong learning through the lives of Black Americans, 60's music and literature.</p> <p>CO4. Comment on the general culture of different places where English is used.</p> <p>CO5. What are the aspects of culturally diverse societies around the world.</p>
ENG/VI/CC/09	English IX (Indian Writings in English)	<p>CO1. Describe the impact of representative literary and cultural texts through Post-Colonial novels.</p> <p>CO2. Comment how people develop a sense of national identity after reading texts about colonial domination, and the ways in which writers articulate and celebrate each identity.</p> <p>CO3. Describe the meaning of resistance of the colonizers.</p> <p>CO4. Describe the provisions of the various phases of Indian writings in English changes the literary scenario of different decades and their genres.</p> <p>CO5. Write an note on how the thematic concerns, genres and trends of Indian English writers develop a keenness for regional literatures.</p>
ENG/VI/CC/10	English X (Drama)	<p>CO1. Describe how drama studies can shape students into formed, skilled, knowledgeable and ethical interpreters by nurturing their ability to understand drama.</p> <p>CO2. Discuss the historical context, psycho-social and discern values associated with the texts.</p> <p>CO3. Write a note on how to obtain a value orientation by means of poetic justice in</p>

		tragedy or comedy and comprehension of human actions and their consequences in life.
ENG/VI/CC/11	English XI (Literary Theory & Criticism)	CO1. Analyse classical literary criticisms from the Greek Plato to Longinus in the Roman Period. CO2. Analyse the Medieval and Renaissance mode of criticism. CO3. Describe how to appreciate the critical approaches of philosophical theories proposed by 20th Century critics. CO4. Describe how to interpret literary works so as to develop aptitude for critical analysis.
ENG/VI/CC/12	English XII (Commonwealth Literature)	CO1. Differentiate the nature of Commonwealth Literature from the Colonizers literature. CO2. Describe the culture and traditions of the Commonwealth. CO3. Describe the colonizers influence in all aspects of life including language. CO4. Discuss the need to resist the outside influence and uplifting one's own culture.
Programme Outcome		PO1. Students are able to develop intellectual, personal and professional abilities through effective communicative skills by ensuring high standard of behavioural aptitude through literary subjects thereby shaping the students socially responsible citizens. PO2. Students employability is developed through their linguistic competence and communicative skills. PO3. Students are able to demonstrate a broad awareness of texts and their historical and cultural context in English. PO4. They recognize how literature has served a role in social change. PO5. They are able to appreciate the interconnectivity and inter-disciplinary aspects of all knowledge.
Programme Specific Outcome		PSO1. Students are familiar with representative literature and cultural texts within a significant number of historical, geographical and cultural contexts. PSO2. They are able to apply critical and theoretical approaches to the reading and analysis of literary and cultural texts in multiple genres. PSO3. They are able to ethically gather, understand, evaluate, and synthesize information from a variety of written and electronic sources. PSO4. They are able to write analytically in a variety of formats- essays, reflective writing and reviews of secondary sources. PSO5. They develop intellectual flexibility, creativity and cultural literacy so as to

	engage in life-long learning.
